PROFILE

Experienced UI/UX Designer & Developer looking to further my knowledge in more UI/UX related fields and management skills. Having 6 years experience in the IT industry, familiar with crypto wallets, blockchain transaction system, e-commerce, MLM business, payment gateway, banking, e-wallets & redemption application. Able to take ideas from concept to wireframe to prototype. I bring an engineering perspective and creative problem-solving approach to create products and experiences people love to use.

EXPERIENCE

UI/UX DESIGNER & DEVELOPER

ISCity Sdn Bhd | 2018 - Present

- Engaged in several design & developments: crypto wallet, blockchian transaction system, e-ceommerce, MLM business system, payment gateway, live content streaming, charity application and e-wallets & redemption.

- Facilitate the client's product vision by researching, conceiving, sketching, prototyping and user-testing experiences for digital products.

- Create world-class user experience and translate concepts into user flows, wireframes, mockups and prototypes that lead to intuitive user experiences.

- Developed product strategy with product leads by conducting market research and identifying user pain points.

- Work closely with product clients, business analyst & tech team to gather user requirements and provide client centred solutions to fit the behaviours or interaction of design & development.

- Quality check on UI development, ensuring the design is aligned with DLS (Design Language System) - Consistency, Recognisability, Ease of Use, Cost Effectiveness, Stability & Flexibility, Innovation.

- Responsive web development if necessary.
